**List Item Renderer Object****102**

```
public interface ItemRenderer {  
  
    /* sets the data to render */  
    public void SetData (Object data);  
  
    /* gets the data being rendered */  
    public Object getData ();  
  
    /* sets the visibility state */  
    public void setVisible (boolean visible);  
  
    /* gets the visibility state */  
    public boolean isVisible ();  
  
    /* gets the component to which data is rendered */  
    public java.awt.Component getRenderComponent ();  
}
```
